DETAILED ACTION

This Office Action is in response to the applicants' After Final Amendment filed on July 8, 2004.

Response to Amendment

The cancellation of claim 3 and amendment to claim 4 has been entered.

Response to Arguments

Applicant's arguments, see page 13 filed July 8, 2004, with respect to claim 1 and 11 have been fully considered and are persuasive. The rejection of the claims has been withdrawn.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenneth N. Nigon on August 26, 2004.

The application has been amended as follows:

Claims 9, 10, 17 and 18 have been canceled.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The present claims include novel and unobvious features in that the examiner was unable to find in several prior art searches. US Patent 6,618,442 to Chen et al. teaches the conversion from DV to MPEG in the DCT domain (Col 2 Lines 10-16 and Lines 34-54, Fig. 6). Chen does not teach the DCT coefficient blocks including run-length coded coefficient values. The claims therefore include the novel feature of transcoding a first encoded video signal that has been compressed using a DCT operation in a first video format into a second encoded video signal that is compressed using a DCT operation in a second video format, different from the first video format, where the first encoded video stream is decoded to obtain DCT coefficient blocks wherein at least some of the DCT coefficient blocks include run-length coded coefficient values. The video formats used are DV and MPEG-2 as taught by the applicant. These features taken with the others in the claims define over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erick Rekstad whose telephone number is 703-305-5543. The examiner can normally be reached on 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chris Kelley can be reached on 703-305-4856. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
